Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Amendment

The response filed on September 2, 2004 has been considered but is ineffective to overcome the prior art reference.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6, 7, 11, 12, 14-17, 19, 21-24 and 26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rice (4,884,404) in view of Engler, III et al. (5,452,751) as noted in the previous Office Action.

Claims 18 and 25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rice et al. (4,884,6404) in view of Engler, III et al. (5,452,751) as applied to claim 6 above, and further in view of Jaksha (5,367,933) as noted in the previous Office Action.

Claims 20 and 27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rice et al. (4,884,6404) in view of Engler, III et al. (5,452,751) as applied to claims 6 and 11 above, and further in view of Fukuda (5,868,188) as noted in the previous Office Action.

Response to Arguments

Applicant's arguments have been carefully considered but they are not persuasive. Regarding claims 6 and 11, Applicant argues that the prior art references fail to disclose "*at least two groups [of hole patterns] having different radial hole center distances for mounting routers having different mounting footprints*" and that improper combination of the references is made. This argument however is not found persuasive because, as noted in the previous Office Action, the prior art references, Rice and Engler, III are analogous in that they both teach mounting a router to support bases via various mounting holes in the base in correlation to that of the router. Additionally, the references clearly disclose router table/mounting plates/support for mounting routers wherein there are a plurality of mounting holes in the table/mounting plate. The recitation, "*for mounting routers having different mounting footprints*" is merely an intended use function and the resulting combination would be capable of performing the intended use. Because the references are analogous and are concerned with mounting routers to supporting surfaces, proper combination of the references is made and the rejection stands.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 3725

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
